ABOUT US

千慈集團係由老董事長 - 蕭江波先生於 1981 年創立，歷經 35 年的風雪洗禮，躺過無數次風難，遇過幾次金融風暴的衝擊，如今仍然屹立不搖，馳騁在橡膠業界，位列業界標竿企業之中。歸其主因為：老董事長堅定的創辦理念 - 誠信第一，品質第一，服務第一。數十年如一日的堅持與拼搏，在競爭環境如此激烈的市場下，信念還能不動如山，專注於橡膠本業，此敬業精神令人由衷敬佩，並為二代繼承者之學習榜樣。

二代集團領導人係現任千慈集團董事長 - 蕭智元先生與總經理 - 蕭智宏先生共同領軍。正所謂：兄弟同心，其利斷金。兩兄弟情比金堅，手足情深，抱相同理念與經營信念一起為千慈集團再造輝煌。秉持創新，突破傳統框架，延續老董事長的創辦理念，接續拼搏奮鬥，爭創集團利益最大化，提高職工福利，全力滿足客戶需求。現代是飛速的市場，是客戶導向的市場，千慈集團唯有不斷銳意進取，與時俱進，精益求精，堅守信念，才可繼續在橡膠業界佔有一席之地。

Founded in 1981 by the former president Mr. Tony Hsiao, Best Ring has evolved into one of the most promising rubber company in the world. Over the years Best Ring has overcome many challenges and obstacles in the process, the experience that is conducive to a resilient company. Best Ring is proud of its reputation for integrity, quality and service it inherited from Mr. Tony Hsiao.

The second generation Best Ring Group, under the leadership of President Paul Hsiao and General Manager Andy Hsiao, maintaining the original philosophy of the former president, coupled with renewed enthusiasm and confidence, will propel the company towards the 21st century. Best Ring will endeavour to exceed customers' expectation, improve employees' welfare and upholding the company's integrity.

Faced with competitive market, volatile economic climate and the ever changing market requirements Best Ring continues to innovate in R&D, quality and service. We recognize that, improving productivity, manufacturing technology and efficiency are paramount to our success, at the same time ensuring the manufacturing method complies with the strictest environment standard.

我們的產品 Our Product

物料部門 Compound Dept.

進料、混煉、精煉出片 Mixing, Blending, Refining, and Finished compound

研發後的原料，經混煉並加入促進劑，使其穩定性提高後，壓延成片再經過先進的硫變機測試，確保物料符合標準。

After the research and development of raw materials which are mixed and melted along with accelerators to achieve high stability. Then, The compound is manufactured and subjected to a series of tests such as tensile strength and abrasion resistance to ensure meeting the highest international standards.

備料 Compound preparation

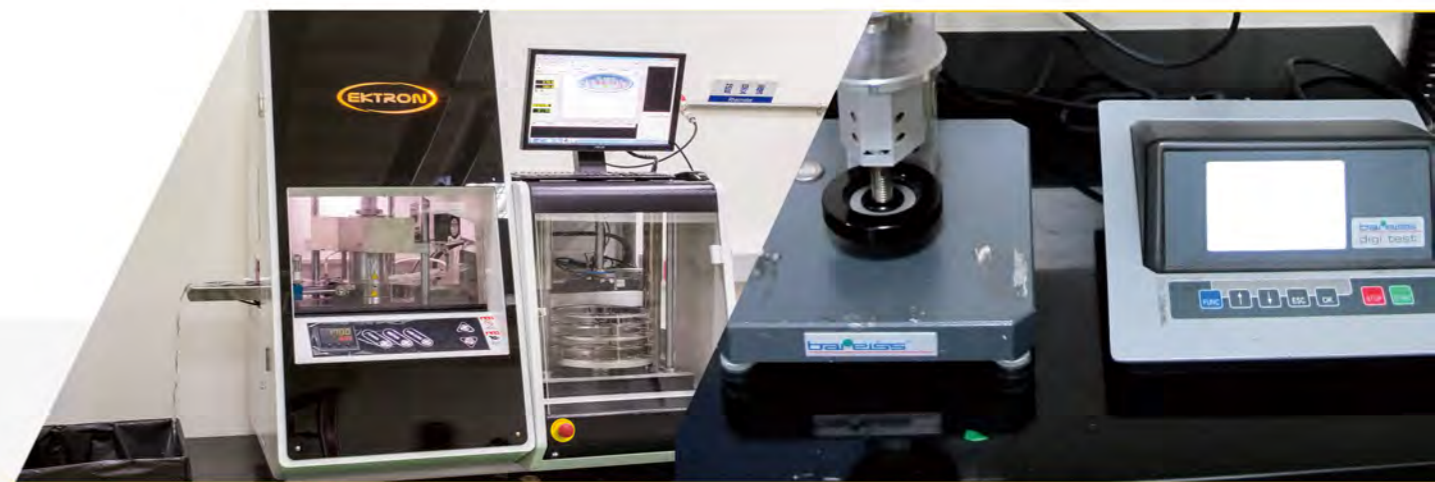

出片的原料需先經過裁邊、修齊，依橡膠製品的大小切出符合的膠料。

Film of compound is need to process of trimming, cutting per rubber finished goods size.

研發的力量 R&D Strength

研發是企業不斷成長的動力！
沒有研發就沒有未來！
R&D drives to continue corporate growth!
Without R&D, there is no future!

千慈自創業以來始終堅持“科技強企”的發展戰略，不斷提高企業的技術創新能力，不斷推進企業技術進步，逐步實現企業由勞動密集型向技術密集型的轉變，在技術革新和工裝設備、設施的現代化改造方面，一直向歐美領先企業看齊，走在亞洲橡膠密封製品行業的前端。

Since establishing in 1981 BEST RING GROUP has strictly adhered to its development strategy of “Science adds strength to an enterprise”. By continually enhancing its technological and innovative abilities, promoting technological progress, a transformation from a labor-intensive enterprise to a skill-intensive one has been gradually achieved.

In the fields of technological innovation and modernized-modeling of tools, equipment and facilities, by learning from advanced enterprises in Europe and U.S, BEST RING GROUP has been the leader of rubber sealing articles industry in Asia.

千慈研發部門統轄整個集團的開發，現代精密模具加工和高科技手段的產品檢測。並與宜蘭大學化學工程與材料工程學系，台灣科技大學及其他化工研究所建立穩定的科研關係，為企業技術創新和新產品開發提供有力的支持。

Development of the BEST RING, processing of modern precision tooling and Hi-Tech product testing has been Under charge of the R&D department of BEST RING GROUP.

We have established a stable cooperation with various scientific institutions in Taiwan, including Chemical Engineering Institute of National Ilan University NIU & National Taiwan University of Science and Technology and other chemical research institutions for providing Better support for our technological innovation and new product development.

原料的研發（實驗室）R&D Dept.

多年來，千慈集團不斷的投入相當多的資源在於橡膠原料的研發上，尤其針對橡膠在長時間使用時的耐熱、耐寒、耐油、耐磨、耐酸鹼等特點，並進一步深入研究探討，希望能開發低成本、高品質的橡膠產品。

Over the years, Best Ring Group has committed to considerable resources into developing rubber raw materials, particularly the long-term property resistance to heat, cold, oil, wear, acid and alkaline. The goal is to achieve low-cost and high-quality rubber products.

生產部門 Production Dept.

油壓成型與品檢 A 組 Hydraulic molding and Inspection Division A

經過精密的油壓成型後，由品檢 A 組人員作初步確認產品外觀尺寸一切正常。每日產量高達 2 億 pcs，且需經由嚴密的製程，每月出貨達 100 噸。

Products are hydraulically formed and continuously checked by inspect. Division A to ensure that visual quality and dimension are correct. Production capacity is 20 million pieces a day under the stringent standards for quality. Shipments reach 100 tons/month.

去毛邊、二烤、品檢 B 組、品質保證 QA Deflashing, Inspection Division B

依 AQL 標準由品檢人員作外觀 100% 檢查，再由品保人員檢驗成品符合 AQL1.0 之國際標準，如發現成品表面有著灰塵，則需以清水洗淨表皮烘乾，並執行二次加硫，確認物性通過客戶要求及國際標準。

Check AQL quality assurance and Post curing products are trimmed and subjected to a 100% quality by inspection Division B to fulfill AQL1.0 quality level. The surface is washed to remove any dust or particle and blown dry. The vulcanization process, is then completed in our Post-Cure oven.

押出部門 Extrusion Dept.

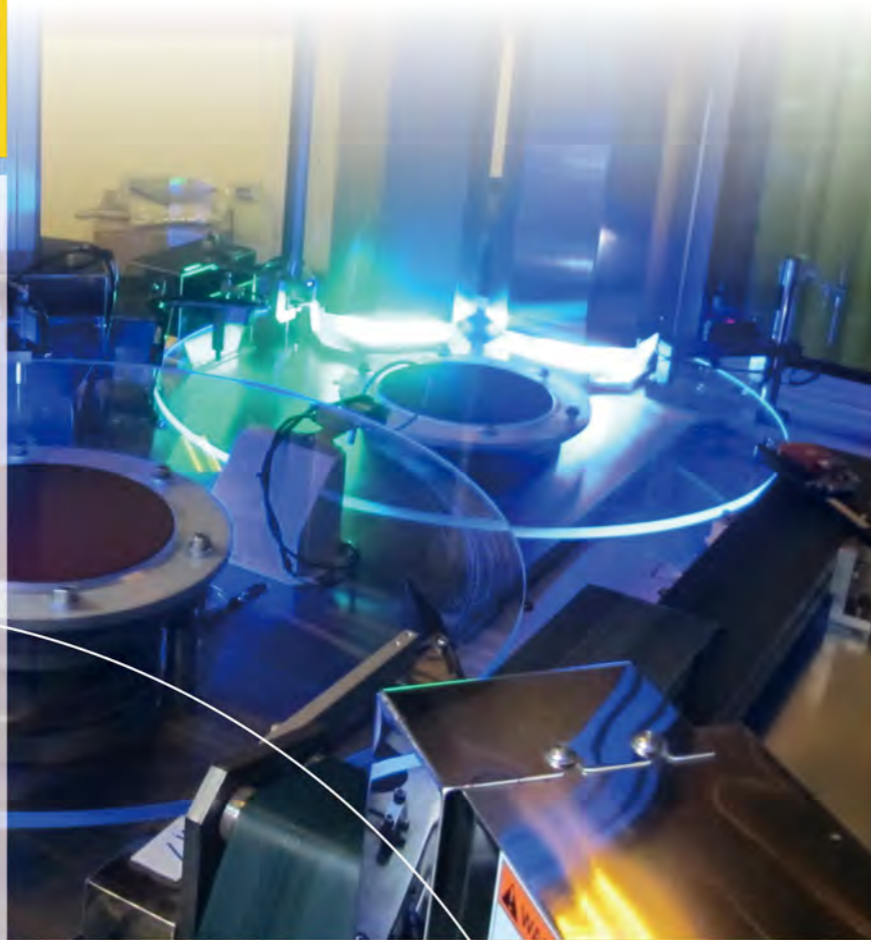

包裝出貨 Packaging Shipping

包裝與驗貨 Packaging and Final inspection

經過層層嚴密製程，橡膠成品才得以包裝並由驗貨人員做 F.Q.C 檢驗，達到對客戶完全負責的態度，給予客戶最大的保障。

After the products passed all the complete tests and inspections, they are packaged and subjected to the Final Quality Check. The FQC ensures that product meets customer requirement on every process.

模具部門 Mold Dept.

在橡膠模具的研發上，一直是我們努力的重點，不論是模板的選擇、CNC 機器的更新，人員素質的提升，都持續的進步，且如何節省成本，增加模具的準確性，使其得以緊跟著科技的腳步，更是千慈集團所致力追求的目標。

BEST RING has always devoted a great deal of time and effort to choose the material of tooling, renew advanced CNC machine and engineers training. Our tooling department has made contributed to save cost, and increase accuracy of tooling and keep up with the latest advances in science and technology.

千慈質量 Our Quality

導入 ERP. MRP. APS 科技系統管理

追求卓越：專注於開發生產優質的橡膠製品，以卓越的質量塑造千慈品牌，使千慈持續成長

Import technology system management of ERP, MRP, and APS.

Pursue Excellence : Achieve a sustainable development by concentrating on developing rubber products with high quality and building the BEST RING GROUP brand with excellent quality.

追求卓越 領先市場 質量方針

領先市場：在產品質量、服務質量、市場佔有率、經濟效益、管理水平各方面指標上領跑同行，領先於競爭對手

To be Market Leader : Take a leading role in terms of product and service quality, market share, economic efficiency and level of management, keep ahead of our competitors.

質量管理 Quality Control

千慈三十餘年間服務世界汽機車、水暖衛浴等行業領先其他企業的過程中，逐步建立完善現代化的質量管理系統，公司陸續通過 ISO9001, IATF 16949, TAF ISO17025 : 2005, NSF, WRC, KTW, CSR 等國際質量管理體系認證，並通過公司的品質管控機制，實現了千慈質量管理從體系到手段的一體化。

Quality Control : A modern quality control system has been established over thirty years service for advanced global enterprises in industries of steam engine vehicles and plumbing & bathing facilities, etc. Our company has passed International Quality Management System Certification including ISO9001, IATF 16949, TAF ISO17025 : 2005、NSF、WRC、KTW、CSR and our own quality control mechanism. We have achieved integration from system to method in our quality control and management.

展望未來 Brilliant prospects

專業、持續精耕汽機車、水暖衛浴等市場，同時加大力度研發，高端市場的橡膠產品，航太、醫療、科技…等相關產業

Professionalism, continuously investing in markets such as motorcycle and automotive, plumbing and bathroom supplies; while increasing efforts to research and development for high-end markets like rubber products, aerospace, medical, and technology related industries.

全力佈署進軍國際化、全球化，用 3-5 年時間，爭取在台灣上市 (IPO)。

Full deployment toward internationalization and globalization, expect to public listing in Taiwan (IPO) within 3 to 5 years.

計畫 3 年內，在美國設服務處與倉庫，即時服務美、加地區客戶

Set up service center and warehouse in the United States within three years, to provide real-time service to the United States and Canadian customers.
