<p>备注 Remarks</p> <p>1. 当模具到达我司后, 若穴数或蚀纹区域的分布与上述描述不一致 (如只报了前模但来了后模或行位), 则价格需另作调整。 The price will be updated if the cavity and/or texture area are different from the above description once the mold arrives to our company.</p> <p>2. 此估价单只限于模具正常状况下的工期和价格, 不包括法定节假日、蚀纹工作未能及时展开并停顿的时间, 不包括对EDM、抛光、脱模角度不够、烧焊区域的特殊表面处理和纹路再调光等产生的额外费用。 The prices and delivery terms are only applicable under normal conditions, which does not include holidays or waiting time because of mold problems and does not include EDM, polishing, welding, readjusting the gloss level and so on that would cause an increase in cost and delay delivery time.</p> <p>3. 此估价有效期为一个月。蚀纹后请尽快试模, 如发现纹理异常应立即书面通知我司, 双方协商解决问题, 模具出口前验收合格, 我可概不负责国外的维修费用; 出货之日起三个月内无反馈视为验收合格。 The validity period of this quotation is one month. Please try moulds as soon as possible after texturing and if you notice abnormal texture(s), inform us immediately. The mold should be approved before export. We shall not be liable for any foreign maintenance cost, the mold will be assumed approved if no feedback within three months from the date of shipment.</p> <p>4. ①蚀纹区域如果有碰穿需先画线 ②需蚀纹的主模和镶件需拆开后再给我司 ③特殊情况如果我无法将镶件和主模装一起蚀纹需贵司过来协助。 ①Please scribe a line first if the texture area has a shut-off surface ②Please separate the cavity and insert before sending to us ③Customer should help to assist if such special circumstances occur and we cannot texture when the insert and cavity are assembled together.</p> <p>5. 运送3吨及以上的模具请使用敞篷车以使用天车吊卸。 If the weight of tooling is over 3 tons, please transport to us by covered truck so that we can lift via crane.</p> <p>6. 本司无责任承担加工后不适的一切费用, 如涉及赔款, 最高补偿额将是有关工件的蚀纹报价额。 Mold-Tech will not be responsible for any cost after engraving, the highest compensation amount will be quotation value of the parts if there is any.</p> <p>7. 付款方式: 出货前付清含税货款COD。 Payment terms: Payment before shipment (bank account transfer).</p> <p>8. 模德使用Jenoptik Hommel W10粗糙度测试仪测量纹理的深度, 使用ZGM 1120和BYK 4442光泽度测量仪测量光泽度, 这些设备在测量和数据方面将被视为权威。模德不接受/考虑来自任何其他测量设备测出的纹理深度/光泽度数据。 Mold-Tech utilizes Jenoptik Hommel W10 roughness testers to measure a pattern's depth and ZGM 1120 & BYK 4442 glossmeters to measure gloss, these devices will be considered as "master" in terms of measurement and data. Mold-Tech will not accept/consider measurements/data from any other measurement device in regards to a pattern's depth/gloss.</p>
